ABOUT THE ARTIST

**I READ THE ROOM
FROM THE FIRST
TRACK.**

TWIST SOUND is a Moscow-based DJ and sound producer working where **Afro House**, **Tech House** and **Indie Dance** collide. Organic percussion, driving basslines and atmospheric melodic layers – a signature sound built to work on festival stages and in intimate club sets alike.

He is the **A&R manager and resident of AFROKHIN** – one of the world's leading Afro House labels. His singles and remixes come out on European electronic labels, and several have reached the **Beatport Top-10** in Afro House.

His sets are never pre-planned: he watches the crowd and leads it, letting tracks flow into each other organically – and sometimes unexpectedly – so the dancefloor stays with him until the very last record.
